Summer University

**MISU<sup>LMU</sup>**  
ANNUAL REPORT  
2014

# FOREWORD

Founded in 1472 in the city of Ingolstadt and relocated to Munich in 1826, Ludwig-Maximilians-Universität München (LMU Munich) can look back on a rich academic tradition encompassing almost 550 years. LMU's reputation for outstanding academic achievement is known around the world. One indication for this can be seen in the fact that the University is a founding member of both the League of European Research Universities (LERU) and the Venice International University (VIU). All in all, the University cooperates closely with more than 400 international partner universities and renowned research institutes. These co-operations cover areas ranging from academic contacts and student exchanges to the design of joint degree programs and sophisticated summer programs.

The Munich International Summer University (MISU<sup>LMU</sup>) is an especially notable expression of LMU's commitment to creating a strong international community, which also promotes worldwide awareness of its achievements in research. One can hardly imagine a better ambassador for LMU than someone who returns home from a summer program fully satisfied by his or her experience.

For students, MISU<sup>LMU</sup> is an opportunity to experience LMU at a personal level. Regardless of whether they take part in a Summer Academy or in one of the dedicated German Language Courses, they benefit from access to renowned professors and teachers who will inspire them to broaden their thinking. Besides, all MISU<sup>LMU</sup> programs include extracurricular social and cultural activities, enabling participants to gain valuable insights into a foreign culture during their stay.

The MISU<sup>LMU</sup> has been a success story from the very beginning. This summer, some 867 participants representing 85 nationalities participated in one of the challenging and stimulating courses offered by MISU<sup>LMU</sup>. My thanks go to all those who have contributed to its success.

September 2014  
Prof. Dr. Hans van Ess  
Vice President International Affairs, LMU Munich  
Chair of the MISU<sup>LMU</sup> Academic Board

# MISU<sup>LMU</sup> at a GLANCE

## History

During the 1920s and 1930s LMU Munich hosted summer courses pertaining to German language and literature. The first course to be documented was a German language class in the summer of 1927. After a hiatus lasting several decades, LMU Munich restarted its summer activities in 1998, then under the name of Internationaler Münchner Sommer. Subsequently, the number of language classes has grown, along with the establishment of completely new Summer Academies covering a broad range of academic subjects. In 2008 LMU's summer courses were integrated into the Munich International Summer University, or MISU<sup>LMU</sup>, giving a distinct vision and common standards to the various programs as well as consolidating its role as an international institution of LMU Munich.

## Concept and Key Features

Summer programs are valued as an instrument for improving the profile of a university and a chance to showcase its academic strengths to an international cohort of students and their home universities. As an institution of LMU Munich MISU<sup>LMU</sup> curricula are developed and classes held by LMU staff, partly in cooperation with outstanding German and international partners. All courses guarantee a high academic standard. Small classes, as well as modern and interactive teaching methods, ensure that students are fully engaged in their studies. In general, it is possible to earn credits (usually ECTS credit points in accordance with the European Credit Transfer System) for MISU<sup>LMU</sup> Summer Academies and Language Courses. The programs are academically intensive, but offer far more than an academic experience alone, as the participants also learn a great deal about their host city and country during their stay. In addition, the students are supported by a broad spectrum of services, such as detailed pre-arrival information and the organization of their accommodation. All MISU<sup>LMU</sup> courses and activities are of a non-profit nature: the fees for participants are calculated to cover the costs only. And, of course, MISU<sup>LMU</sup> strives to offer financial aid too, in order to facilitate participation. In 2011, all members of the MISU<sup>LMU</sup> Academic Board approved a concept which includes these key features.

## Objectives

MISU<sup>LMU</sup> aims at providing its participants with high-level academic knowledge as well as an unforgettable stay in Munich, while simultaneously enhancing the international visibility of LMU Munich and its academic strengths. Summer programs are also valued as a means of developing international co-operation with partner institutions. For international students, MISU<sup>LMU</sup> offers an excellent opportunity to gain insight into research and teaching at LMU. Courses can serve both as an alternative to longer exchange programs as well as a pathway to further studies, thus increasing student mobility and attracting students of extraordinary caliber. Furthermore, MISU<sup>LMU</sup> is designed as a long-term undertaking, with a spectrum of courses representing the relevant academic subjects of LMU Munich. Hence to increase the number of Summer Academies is another important objective for the future.

## Responsibilities

The MISU<sup>LMU</sup> Academic Board functions as an advisory panel and is responsible for both quality control and quality assurance. Six persons are members of the board: the Vice President for International Affairs, who acts as chair; three LMU professors, each of whom represents a different discipline - the social sciences, the natural sciences, and German language and literature studies - and who advise on academic matters; the head of the International Affairs Office and the executive director of the IUCM, who advise the board on administrative and non - academic concerns.

Three parties shoulder MISU<sup>LMU</sup>'s practical organization. As part of the administration of LMU Munich, the MISU<sup>LMU</sup> office is the point of contact within the university. The International University Club Munich (IUCM) is responsible for logistics. Academic staff members of LMU Munich prepare schedules and select participants, along with holding classes, testing, and writing certificates.

See annexes for an organizational chart and the names of the current board members.

- Network and Communication

# MISU<sup>LMU</sup> OFFICE AND MANAGEMENT

## Organization

The MISU<sup>LMU</sup> office was established in the summer of 2007 in order to coordinate existing summer programs, to cooperate in developing new ones, and to promote communication about MISU<sup>LMU</sup> within LMU, to LMU partners, and to interested people around the world.

The International University Club Munich (a registered non-profit association of former LMU students, or Verein in German, abbreviated as e.V.) has been working since its establishment in 1996 with LMU's International Affairs Office in order to enhance the internationality of LMU Munich by assisting international students. The co-operation between LMU and IUCM is laid down in an agreement, through which IUCM assumes responsibility for MISU<sup>LMU</sup>'s organization. IUCM's activities include the organization of: accommodation (MISU<sup>LMU</sup> participants usually live in student dorms); excursions (for example, to Neuschwanstein Castle, Berlin, Salzburg, or the Dachau Concentration Camp Memorial Site); and the social and cultural program (e.g., opera, museums, soccer games, the annual Welcome Event); plus the handling of applications and participant fees for several courses.

## Events

There are three prominent MISU<sup>LMU</sup> events during the year: the Annual Meeting, the meeting of the Academic Board, and the MISU<sup>LMU</sup> Welcome Event.

The **Annual Meeting** is a get-together of those involved in the organization of a MISU<sup>LMU</sup> Language Course or Summer Academy. The 2014 Annual Meeting took place on April 4. Course directors and course organizers, staff of LMU's International Affairs Office, the MISU<sup>LMU</sup> Office and the IUCM participated and discussed their most recent experiences. The Annual Meeting is primarily conceived of as an information exchange concerning solutions put forward by other MISU<sup>LMU</sup> course staff, in particular with respect to practical questions. The program for the coming year is another important item on the agenda. For the first time an evaluation of MISU<sup>LMU</sup> as a whole was presented for the year 2013, and all attendants decided to evaluate MISU<sup>LMU</sup> 2014 likewise. See annexes for questions and outcomes of the evaluation 2014.

The **MISU<sup>LMU</sup> Academic Board** met on July 7; all six members were present. One main topic of the board meetings is the presentation of the program for the current year. The pool of applications ranged from good to very good for both Summer Academies and Summer Language Courses. The board confirmed all courses and activities. Plans for the subsequent summer were reported by the staff of the MISU<sup>LMU</sup> office and the IUCM. A concept for a new Summer Academy “Europe and the Arab World in Transformation” was extensively discussed. As in former years, an overview of the MISU<sup>LMU</sup> Office budget was presented – which mainly covers fee waivers and PR as well as the Welcome Event.

The **Welcome Event** is one of a few opportunities to meet students from other courses, thus giving an impression of MISU<sup>LMU</sup> as a whole. This year it took place in the afternoon and evening of August 4. The director of the International Affairs Office, Dr. Stefan Lauterbach, gave a warm welcome to the approximately 500 guests. Afterwards MISU<sup>LMU</sup> participants, teachers, and invited guests had the opportunity to engage in conversation while enjoying traditional Bavarian food and drinks to the sound of the band “Emily Street”.

## Network and Communication

The MISU<sup>LMU</sup> office networks both within LMU and externally. University-internal communication involves the administration - most notably the University Executive Board - on the one hand, and members of the academic staff, on the other.

One highlight in 2014 was a newly established Summer Academy “Middle East Studies (Munich –Vienna)”, having received a considerable number of applications already in its first round. Further ideas and new concepts are in discussion for the year 2015 onwards. The Summer Academy “Europe and the Arab World in Transformation” (also mentioned above) is intended for September 2015. A “Neurology Winter School”, a hands-on training with lectures and discussion, and analogous to the established “Oncology Winter School”, is announced

for March. Another Summer Academy “German Linguistics” is considered to be held again. Due to the fact that the universities of the southern hemisphere have their “summer break” in January /February, the development of a distinct three to four week MISU<sup>LMU</sup> Academy during these months for students from Australia is also under consideration. An already established “Neuroscience Seminar in Germany”, of the Faculty for Undergraduate Neuroscience (FUN), may be added to MISU<sup>LMU</sup> for the next period.

In the light of the fact that the internet is essentially the main source of information worldwide, the maintenance and actualization of the MISU<sup>LMU</sup> sites is a main concern of all involved parties. Further portals – such as the summer courses portal of the German Academic Exchange Service (DAAD), “shortcoursesportal”, or “summerschoolsineurope” – are also instrumental in informing young people around the globe. Flyers for MISU<sup>LMU</sup> are produced in co-operation with Haak & Nakat (an agency which also created the LMU corporate design), the MISU<sup>LMU</sup> office supplying texts and dates. Other platforms which report regularly on MISU<sup>LMU</sup> include: the newsletter of the International Affairs Office, or LMU’s international newsletter (insightLMU). The LMU representatives in the US, China and Brazil, as well as the colleagues at International Offices of LMU partner universities, are further key contacts, often just as true of people encountered at visits, fairs, and other events, and delegations visiting the International Office of LMU Munich.

# MISU<sup>LMU</sup> Summer Academies

---

MISU<sup>LMU</sup> Summer Academies offer high-level instruction in various scientific subject areas of LMU Munich; opportunities range from demanding undergraduate courses via advanced seminars to practical research experience. Held in English, they are an excellent opportunity for international students to gain a valuable first insight into researching and teaching at LMU. MISU<sup>LMU</sup> always strives to enhance the number and to broaden the spectrum of subjects of its Summer Academies.

In 2014, a total of 10 programs were organized in the fields of law, media, economics and entrepreneurship, political sciences, medicine and natural sciences.

- Oncology Winter School
- Occupational Health Crossing Borders Summer School
- Munich University Summer Training in German and European Law (MUST)
- Munich Advanced Course in International Law (MACIL)
- European Studies (Munich –Vienna –Prague)
- Middle East Studies (Munich – Vienna)
- Munich Summer Curriculum (MSC):  
Electronic Media + Internship
- Global Entrepreneurship Summer School (GESS)
- International Summer Research Program in Nanoscience
- Summer Research “From Molecules to Behaviour” (Amgen Scholars)

# Oncology Winter School

## Klinikum der Universität München

In the course of this four-week program, medical students from around the world get a close-up view of the everyday routines in an oncology clinic.

**Topics and objectives:** Participants spend the first part of the day on the oncology wards, learning the daily routines, accompanying patients from reception through diagnostic procedures to therapy sessions. The afternoons are taken up with courses on the latest diagnostic methods or therapeutic approaches, and discussion of individual case studies in small groups. In addition, they work with actors on aspects of problem-oriented communication, a vital element of the medical professional's skill set. As well as getting to know the day-to-day routines on the wards, the students are introduced to clinical laboratory work, try their hand at image-based functional diagnostics, visit the Rehabilitation Clinic in Bad Trissl, and attend the weekly oncological review conducted by the staff specialists at the Medical Center.

**Target group and application:** The elective addresses senior medical students, particularly those from LMU Partner Universities, who attend this four-week rotation together with senior medical students from LMU. A German „study buddy“ is assigned to each participant from abroad.

**Future prospects:** The program will continue in 2015.

# Occupational Health Crossing Borders Summer School

## **Institute and Outpatient Clinic for Occupational, Social and Environmental Medicine of the University Hospital Munich**

The two-week summer school “Occupational Health Crossing Borders” was established in 2008 by the Occupational and Environmental Epidemiology & NetTeaching Unit of the Institute and Outpatient Clinic for Occupational, Social and Environmental Medicine of the University Hospital Munich. This interdisciplinary unit of researchers has several focuses, such as occupational and environmental risk factors for diseases in Germany and other countries throughout the world.

**Topics and objectives:** The overall aim of this Summer Academy is to train physicians and other health specialists who are currently working or being trained in occupational health from low and middle income countries. The program focuses on the most important aspects of occupational health in research as well as in practice. It provides the opportunity to explore different occupational health systems throughout the world while discussing important aspects in the field across Europe, paying particular attention to the system in Germany.

**Target group and application:** Occupational health postgraduate students, professionals and other health specialists currently being trained in occupational health are the target group of this course. The prerequisites for applying are a solid knowledge of English as well as a sound knowledge of qualitative and quantitative research methods.

**Certificates:** All participants receive a Certificate of Attendance upon successful completion of the whole course. Furthermore, the Summer Academy is accredited with ECTS credit points as well as Continuing Medical Education (CME) credits by the Bavarian Chamber of Physicians.

**Future prospects:** The hosts are eager to keep the topics of the Summer Academy as up-to-date as possible, adapting them to the problems in the participating countries in order to cover aspects that are important to the participants. Therefore, the participants are asked to evaluate the course so that it can be upgraded every year.

# Munich University Summer Training in German and European Law (MUST)

LMU Munich, Faculty of Law

MUST has been starting in 2001 as an initiative of LMU's Faculty of Law. Since its beginning it has included visits to relevant institutions, like the European Patent Office, the Federal Constitutional Court and the Federal Supreme Court of Justice in Karlsruhe. The program was initiated by Prof. Dr. Dagmar Coester-Waltjen and is now under the guidance of Prof. Dr. Ackermann.

**Topics and objectives:** The course provides an in-depth introduction to German and European Law. Special attention is devoted to areas that are of interest to foreign lawyers working in business law, i.e. corporate, securities, and antitrust law as well as business taxation. The program brings together exceptional lawyers and law students from many countries and provides the opportunity to create an international alumni network.

**Target group and application:** Any young lawyer or law student who has done at least one year of study at university level can apply for the program. Participants are selected on the basis of their qualifications and academic or practical experiences.

**Certificates:** At the end of the program participants have the opportunity to take an examination; successful participation in the examination is documented by a transcript with credits and grades issued by the Faculty of Law of LMU Munich. In addition, a Certificate of Attendance is given to all students.

**Future prospects:** The program has meanwhile become very well-established and has been integrated into the faculty. Thus it will surely continue in a similar manner in subsequent years.

# Munich Advanced Course in International Law (MACIL)

LMU Munich, Institute of International Law

MACIL was organised for the first time in August 2012 by the Institute of International Law of LMU Munich. This year's MACIL session focussed on "A No Man's Land in International Law? Towards a New Public International Law for the Cybersphere". Lectures and trips were organised around this topic.

Topics and objectives: Activities in a "cyber" surrounding, especially in the Internet, pose significant challenges to traditional doctrines of Public International Law once considered irrevocable. The leaking of classified state documents, "spy scandals" and "cyber attacks" on national infrastructure are only the most recent examples of trends in international relations that may call into question the cornerstones of the 20th century model of international co-operation. The 3rd session of MACIL thus focused on questions of general Public International Law and specific subjects like International Economic or Criminal Law.

Target group and application: Undergraduate and graduate students of law or political sciences and young academics/professionals with a good command of English and basic knowledge of Public International Law are eligible to apply.

Certificates: Students may opt for a certificate of attendance (4 ECTS credits) or for a graded exam (6 ECTS credits). In the latter case, they have to write an additional essay after completing the program.

Future prospects: The 4th MACIL session is going to take place next summer.

# European Studies (Munich - Vienna - Prague)

**Center for Applied Policy Research (CAP)  
at LMU Munich, Webster University, Vienna Campus**

For the Center for Applied Policy Research (CAP) it was a matter of interest to expand its activities in the field of education and to deepen its international co-operation. Providing the Center's know-how and contacts, CAP initiated the European Studies Program in 2005. Since then, the European Studies Program has been under the guidance of Prof. Dr. Weidenfeld and has been implemented by CAP. The academic partner for the Vienna part were the Austrian Institute for European and Security Policy (AIES) (2009-2012) and the international relation department of Webster university.

**Topics and objectives:** The objective of the Summer Academy is to provide students with a broad understanding of institutional development and the economic, societal, political and philosophical dimensions of the European integration project. Furthermore, the course analyses Europe's role as an international political and economic actor, as well as its relations to different countries and regions around the world. Students with different academic backgrounds and a general interest in European affairs benefit from each other in an intercultural and interdisciplinary learning process.

**Target group and application:** Prerequisites are a good basic knowledge about European politics, law, history and culture, and a strong interest in Europe in general. Class participation, especially in the discussions with experts, is essential for the success of this course and plays an important role in the grading process.

**Certificates:** Certificates with grade, transcript and ECTS credit points are received upon successful completion.

**Future prospects:** The European Studies program will continue in subsequent years.

# Middle East Studies (Munich – Vienna)

## Center for Applied Policy Research (CAP) at LMU Munich; Middle East and International Affairs Research Group (MEIA Research)

The Middle East is undergoing considerable change. The Arab Spring has swept away long-standing regimes in Tunisia, Egypt, Libya, and Yemen. In the ongoing Syrian civil war, a heterogeneous opposition is fighting against the regime and amongst itself. Meanwhile, the Islamic State (IS) works towards the establishment of a border-transcending theocratic state. Fundamental economic challenges, an important cause of the Arab Spring, persist to causing political instability. The heterogeneity and seeming irreconcilability of moral and religious ideals increasingly split societies of Middle Eastern states.

**Topics and objectives:** This program provides students with a broad understanding of political, economic and societal developments in the contemporary Middle East. It is based on an interdisciplinary approach and combines lectures, discussions, and meetings with politicians and practitioners. Based in Munich, the program also includes a field trip to Vienna.

**Target group and application:** Advanced students with interest in foreign policy, economic and societal developments can apply. An in-depth knowledge of Middle Eastern affairs is not required.

**Certificates:** Certificates with grade, transcript and ECTS credit points are received upon successful completion.

**Future prospects:** The program is planned to take place again in 2015.

# Munich Summer Curriculum (MSC): Electronic Media Studies and Internship program

**Center for Internet Research and Media Integration (CIM)  
at LMU Munich; Electronic Media Division of the  
University of Cincinnati (UC), USA; Colorado European  
Union Center of Excellence (EUCE), housed at the  
Colorado University at Boulder (CU Boulder)**

There has been a long-standing co-operation between the University of Cincinnati and LMU Munich. In 2005, both UC and LMU responded to a challenge grant administered by the German Academic Exchange Service (DAAD), called "Study Abroad in Germany/ Put Germany on Your Resume". The following year MSC started as one of the partner programs of MISU<sup>LMU</sup>. Since 2011 it has been established as an offer for students across the US and the globe. 2014, finally, CU Boulder joined as a further partner of the program.

**Topics and objectives:** The curriculum starts with a „survival“ German language instruction, followed by a challenging subject-specific study program in the areas of media management, media theory / communications, electronic mass media and new media online. These German and theoretical courses are complemented by a four-week internship in a German media company located within the Munich area.

**Target group and application:** MSC addresses to sophomore and junior students in relevant majors, such as journalism, mass communication, radio/television/film, business, electronic media, and digital design.

**Certificates:** Certificates with grades and ECTS / US credits are rewarded upon successful completion of the whole program. The US credits earned by the US students generally count toward their graduation.

**Future prospects:** Since DAAD funding ended the attractiveness of MSC nevertheless remained unbroken. In 2010 the quality of the program was further confirmed by receiving the quality seal from the Forum on Education Abroad (USA). The program is expected to continue.

# Global Entrepreneurship Summer School (GESS)

**The Global Entrepreneurship Summer School is a collaborative project of the four university-based entrepreneurship centers in Munich**

GESS was established in 2008 as a joint initiative of the Social Entrepreneurship Akademie and the four entrepreneurship centres of Munich's universities: LMU Entrepreneurship Center (LMU EC); Strascheg Centre for Entrepreneurship (SCE); UnternehmerTUM; and Center for Technology and Innovation Management (CeTIM). The vision of this summer school is based on the claim „Billion Dollar Projects to Foster Societal Change“. Outstanding students from all over the world are encouraged to challenge society's problems by entrepreneurial means. Participants are expected to think big and to contribute to sustainable change in the dimension of billion.

Topics and objectives: During this summer school student teams develop ideas that have both a sustainable impact for society and a self-sustaining, profitable business model. The students learn about entrepreneurship, develop their own sustainable business ideas and build a long-lasting network of international excellent and entrepreneurial students. In 2014 the overall topic was "Waste". Patroness of this year's summer school was the Bavarian State Minister of Economic Affairs, Ilse Aigner. The Goethe- Institut sponsored the prize for the winner team: an invitation to the Social-Cultural Entrepreneurship Startup Weekend (ZGI:kompakt) in Thessaloniki in January 2015.

Target group and application: Students between 18 – 27 years with a strong interest in entrepreneurship are eligible to apply.

Certificates: A certificate is awarded to all participants upon successful completion of the program.

Future prospects: There is a strong intent to continue this program in the following years. Next year's topic will be "Youth Unemployment".

# International Summer Research Program in Nanoscience

## Nanosystems Initiative Munich (NIM) at LMU Munich

The Nanosystems Initiative Munich (NIM) was founded in 2006 as part of the framework of the German Excellence Initiative and has LMU Munich as its speaker. Further participating institutes are the Technical University of Munich (TUM), Augsburg University, some Max-Planck-Institutes and the Center for NanoScience (CeNS). In 2008, NIM decided to establish an international summer research program.

**Topics and objectives:** The goal of the program is primarily scientific education. Students sharpen their scientific skills while working with state-of-the-art scientific equipment and developing their presentation and scientific writing abilities. Along with this, they are provided the opportunity to experience German culture and language. In 2014, projects in experimental physics, theoretical physics, chemistry and biochemistry were offered, and all were supervised by a graduate fellow. The program aims also to attract excellent international students for PhD-studentships to LMU Munich.

**Target group and application:** Master students with a strong background in natural sciences or engineering and an avid interest to do a PhD are invited to apply.

**Certificates:** Upon completion of the project participants receive a confirmation of participation, the NIM Student Research Award, and a MISU<sup>LMU</sup> Certificate.

**Future prospects:** There is a general intent to continue this program in the following years.

# Summer Research “From Molecules to Behavior” (Amgen Scholars)

## Munich Center for Neurosciences – Brain and Mind (MCN) at LMU Munich

Together with the University of Cambridge and the Karolinska Institute in Stockholm, LMU Munich was selected as a partner with the Amgen Foundation in order to establish an undergraduate summer research program in the fields of biology and biotechnology. Under the guidance of MCN, the Summer Academy “From Molecules to Behaviour” has been running now since 2009. Further participating institutes are: the LMU Faculty of Biology; the Technical University Munich; the Helmholtz Zentrum München; and the Max-Planck Institutes of Biochemistry, Neurobiology and Psychiatry. In 2014, 24 projects were offered in the research fields of biochemistry, cell, developmental, and molecular biology, genetics, microbiology, molecular medicine, cellular and organism neurobiology, computational neuroscience, cancer research, plant sciences and proteomics.

**Topics and objectives:** The program aims to increase learning and networking opportunities for undergraduate students committed to pursuing a career in science or engineering.

**Target group and application:** Qualified students are selected based upon overall academic success, qualified references, motivation to pursue research, and a sincere interest in pursuing a PhD and a career in science. Due to the requirements of the foundation, only students from European countries (according to the European Higher Education Area - EHEA) are eligible to participate.

**Certificates:** A certificate is awarded by the European Coordination Centre of the Amgen Scholars Program, located at the University of Cambridge.

**Future prospects:** The first proposal was approved by the Amgen Foundation for 2009 and 2010, which was followed by a successful 2nd phase proposal continuing the program through 2014. In the 3rd phase the program will be extended until 2018.

# MISU<sup>LMU</sup> German Language Courses

---

are available at beginners', intermediate, and advanced levels; one of the courses also prepares for a DSH- or TestDaF-examination, a prerequisite for a degree study in Germany. Several specialist classes, such as Business German or German as an Academic Language, complement the offer of MISU<sup>LMU</sup> German Courses.

- Summer German Language Course
- Study Preparation Course
- Business German
- DSH- and TestDaF-Training
- German as an Academic Language
- German for Professional Purposes

# Summer German Language Course

International University Club Munich (IUCM e.V.)

These four-week language courses have been offered by IUCM since 1998 in close co-operation with the International Affairs Office of LMU Munich, and are part of MISU<sup>LMU</sup> since its beginning.

**Topics and objectives:** Participants are aimed to develop four basic skills: speaking, reading, writing, and listening. Special focus is laid on communication, in particular in the areas of culture and academic study. The courses also explore and examine social contexts with a look at everyday life and culture in Munich, and are supplemented by a variety of activities - such as films and excursions to points of local cultural significance. Trained language teachers, as well as student tutors, are prepared to help the participants along during the program's various events. Since 2012 additional phonetics tutorials and theater workshops were provided. In 2014, 49 students participated in the theater workshop and 84 in the phonetics tutorial.

**Target group and application:** The course is designed for foreign students in all areas of study. **Certificates:** By regularly attending the classes students are awarded a certificate. This certificate details the number of lessons attended as well as the content and language level of the course in accordance with the regulations of the Council of Europe's Common European Framework.

**Future prospects:** The program will continue certainly; only the number of classes varies during the years.

# Study Preparation Course

International University Club Munich (IUCM e.V.)

The Study Preparation Courses are organized by the IUCM since 1999 in close co-operation with the Office of International Affairs of LMU Munich.

Topics and objectives: LMU's percentage of international students is about 15%, and several hundreds of foreign students take advantage of various study abroad programs – such as Erasmus- every year. The aim of the preparation courses is to provide these students with an intensive German language instruction, whilst giving them an orientation to students life in Munich as well, so that their studies will get off to a good start. Thus the language part is focussed upon the review and development of language fundamentals for study purposes.

Target group and application: Students with all levels of German knowledge, especially those who plan to continue with a study at LMU as a degree or exchange student, can apply.

Certificates: By regularly attending the course students are awarded a certificate with ECTS credit points.

Future prospects: The program will continue certainly; only the number of classes varies during the years.

# Business German

## **The Munich Club for International Relations in cooperation with the Year of Study in Munich at the LMU Munich**

This specialist class started in 2001 as a distinct summer program and has been running as a part of MISU<sup>LMU</sup> since 2008.

**Topics and objectives:** Participants are constantly engaged with the central theme of Business and Economy in discussions, newspaper articles, books, and analysis. During the course they enhance their competence in speaking German, deepen their understanding of economics, and develop solutions for both familiar and unfamiliar questions. While communication through discussion is the main focus during the first week, the course concentrates on the insight and understanding of texts during the following two weeks.

**Target group and application:** The program is intended for high school seniors and students from all academic backgrounds with an interest in international relations and good-to-advanced German skills.

**Certificates:** At the end of the course, participants have the opportunity to test the knowledge they have acquired. If they are successful, they receive a certificate with ECTS credit points.

**Future prospects:** The course is expected to continue during the coming years.

# DSH and TestDaF Training

## Deutschkurse bei der Universität München (DKfA e.V.)

Deutschkurse bei der Universität München offers the most advanced German language class within MISU<sup>LMU</sup>, which prepares its participants for DSH- and TestDaF- examinations.

Topics and objectives: Passing a DSH- or TestDaF- examination is required for academic study in Germany; therefore, this course is aimed particularly at prospective students of LMU (or generally a German university).

Target group and application: Advanced knowledge of German is an essential prerequisite for participation.

Certificates: Regular tests are held in class to check achievements. Upon successful completion and request ECTS credit points are awarded and a certificate is issued.

Future prospects: The course is planned to be offered again in 2015.

# German as an Academic Language

**Deutschkurse bei der Universität München  
(DKfA e.V.)**

A further offer by Deutschkurse bei der Universität München is a specialist course for advanced learners of German, who have to use German in an academic environment and want to improve their expertise on that score.

**Topics and objectives:** The goal is to enlarge the spectrum of academic expression and along with it to advance the academic-communicative capacity on a high level. The general structures of German as an academic language are found in all disciplines; the course is therefore not about technical terminology, but about mediation of structures which are of general academic relevance.

**Target group and application:** For students, PhD-students and scientists with advanced knowledge of German on the C1/C2 level (according to the Common European Framework of Reference for Languages).

**Certificates:** Regular test are held in class to check achievements. Upon successful completion and request ECTS credit points are awarded and a certificate is issued.

**Future prospects:** This course is planned to be offered again in 2015.

# German for Professional Purposes

**Deutschkurse bei der Universität München  
(DKfA e.V.)**

This course, also organized by Deutschkurse bei der Universität München, is a specialist class for students and young professionals, who want to improve their business vocabulary.

**Topics and objectives:** The goal of “German for Professional Purposes” is to give the participants the opportunity to advance their written and spoken German skills in order to use it in a professional environment, thus the course discusses topics like professional presentations, conduct of negotiations, writing of business letters and others, closely related to the overall subject.

**Target group and application:** Advanced students and professionals with advanced knowledge of German on the C1/C2 level (according to the Common European Framework of Reference for Languages).

**Certificates:** Regular tests are held in class to check achievements. Upon successful completion and request ECTS credit points are awarded and a certificate is issued.

**Future prospects:** The course is planned to be offered again in 2015.

# LMU Munich Partner Programs

---

For selected partner universities of LMU Munich, MISU<sup>LMU</sup> offers customized partner programs, tailored to their individual and particular needs.

In 2014, four dedicated partner programs in the fields of European Studies were organized for participants from

- the Chulalongkorn University Bangkok
- the University of Singapore
- the University of Peking, and
- the Chinese partners: Tsinghua, Tongji, Zhejiang, Renmin and Fudan University.

# European Studies for students of the Chulalongkorn University Bangkok

## Center for Applied Policy Research (CAP) at LMU Munich

This Summer Academy exclusively targets students of the MA Program European Studies (MAEUS) of the Interdisciplinary Centre for European Studies at Chulalongkorn University's Graduate School, Bangkok. It focuses in particular on Europe's role as a political and economic actor in global affairs, as well as its relations with different countries and regions around the world. A particular emphasis is also put on the evaluation of the student's research projects for their master's theses. The program has been running since 2011. The planning for the 2015 event has already begun.

# European Studies for Students of the National University of Singapore

**Center for Applied Policy Research (CAP)  
at LMU Munich, Webster Vienna Private University**

This Summer Academy provides advanced NUS - students with an introduction to European politics. It addresses various aspects of European affairs such as economic integration, European cooperation on justice and home affairs, as well as European foreign and security policy. A particular emphasis of the program is on the relations between Europe and South East Asia and on a comparative analysis of regional integration in the EU and ASEAN. Based on an interdisciplinary approach, the course combines different methodologies such as lectures, round-table discussions, group-work and students' presentations along with excursions to meet politicians as well as professionals.

The program takes place in Munich, Vienna and Prague and has been running since 2008. It is expected to continue in 2015.

# European Studies for students of the Peking University

## Center for Applied Policy Research (CAP) at LMU Munich

This Summer Academy aims to provide its participants with a broad understanding of the historical and institutional development, as well as the economic, societal, political and philosophical aspects of the European integration process. Throughout the seminars a particular emphasis is laid on the Chinese perspective on the various issues and policies discussed. Moreover, the course also specifically focusses on the relations between Europe and China and identifies the prospects and challenges for developing further the Chinese-European partnership.

This course for students of the Peking University has been organized since 2008 and is expected to continue in 2015.

# European Studies for students of the Tsinghua, Tongji, Zhejiang, Renmin, and Fudan University

## Center for Applied Policy Research (CAP) at LMU Munich

The aim of this Summer Academy is to provide its participants with a basic understanding of the economic, societal, political and philosophical dimensions of the European integration process. A particular focus is laid on the European science and technology policy and on Europe's role in international trade and finance. Based on an interdisciplinary approach, the course combines different methodologies such as lectures, round-table discussions, group-work and students' presentations along with excursions to meet politicians as well as professionals.

The interest of Chinese universities in MISU<sup>LMU</sup> Partner Programs rose considerably, compared to the years before, thus the course is expected to continue in 2015 almost certainly.

# Evaluation

■ MISU staff was helpful and accessible.

■ Websites are precise, information provided is comprehensive.

■ Pre-departure information (e.g. student guides) was informative and reached me in good time.

■ On site service and organizational staff

■ **University Facilities**

■ **Housing Facilities**

■ **Internet Access**

■ **Extracurricular excursions and social program**

- Instructors / teachers were prepared and competent.

- The course was intellectually stimulating: teaching methods were manifold and inspiring.

- Through participation my level of experience and knowledge increased.

- I gained insight to German culture, my international competence increased.

■ Overall I would rate my summer academy / language course ...

■ I would recommend this program to friends and fellow students.

■ I would consider returning to LMU at a later point in my academic education.
